(A) but scream (B) but screaming (C) but to scream (D) scream
44. It is useless _____ sleep now because you have to go to work in an hour.
(A) try to (B) to try to (C) trying (D) tried
45. Fiona considered _____ up with her boyfriend, but she didn't have the courage.
(A) break (B) having broken (C) to break (D) breaking

IV. Cloze (30%, @2)

(A) Hummingbirds are admired for many reasons. For one thing, they are the smallest warm-blooded animals on earth. Their average weight is 1.8 grams for the smallest species. Therefore, they are hard to spot. For another, a hummer's wings beat about 18-80 times per second. They normally fly ___46___ a speed of 25 to 30 miles per hour. In fact, they can dive at around 60 miles per hour. ___47___, they can fly forward, backward, upside down, or even hover in mid-air. As a result, they can stay over a flower long enough to suck out all the nectar they need. All these traits make them different from ___48___ birds. Some types, such as the ruby-throated hummingbird, are even able to fly across the Gulf of Mexico, a distance of 800 kilometers, without the opportunity to eat anything. They do this by increasing their weight by ___49___ 100%, giving them a stockpile of fuel in the form of fat for their journey. Hummers live in the Americas. They are migratory, with some species ___50___ 10,000 miles in a single season.

46. (A) at (B) in (C) on (D) for
47. (A) However (B) Therefore (C) In addition (D) Conversely
48. (A) all (B) all the other (C) any (D) another
49. (A) no more than (B) as many (C) as widely as (D) up to
50. (A) travel (B) traveling (C) traveled (D) to travel

(B) Both the melody and lyrics of "When You Wish upon a Star" are important in Disney businesses. Pinocchio, the hero in the movie that is featured this song, turns from a puppet ___51___ a real boy because he works hard to make his dreams come true. The words of the song actually are a true description of Walt Disney's life. A modest background didn't stop Disney from dreaming big. Though there were many ___52___ in his career, he never stopped believing in himself. He waited patiently for his big break. Finally, Mickey Mouse saved the day and his career soared. Mickey Mouse is probably the most famous Disney icon. If you have been following his short films long enough, you might have noticed something very interesting about him. No other Disney character has been ___53___ go through as many changes as Mickey. Ever since he was featured in *Steamboat Willie* in 1928, Mickey Mouse ___54___ Walt Disney's most famous cartoon character. Walt Disney first thought up Mickey Mouse at the age of 26 when he was taking a train from New York to Los Angeles. Disney's studio in LA was full of ideas, but it seemed that the East coast bigwigs weren't willing to support him. He came up with the idea of a cute mouse with big black ears and red velvet pants. At first he called him "Mortimer", but his wife convinced him to use the friendlier-sounding "Mickey." ___55___ bringing his team bad news, he told them excitedly about his new idea. Little did they all realize that Mickey would soon become the most famous mouse in the world!

51. (A) of (B) up (C) into (D) with
 52. (A) poverty (B) hardships (C) bravery (D) qualifications
 53. (A) allowed for (B) allowing to (C) allow with (D) allowed to
 54. (A) been (B) were (C) had been (D) has been
 55. (A) Since (B) Even if (C) Instead of (D) As well as

(C) As we drive along Taiwan's coastal highways, we can enjoy stunning views. The rocks and bays ___56___ white sand beaches. And the beautiful capes reach into the sea. If we ride on a pleasure boat, we can catch breathtaking views while white dolphins and whales jump out of the water. ___57___ groups of colorful tropical fish and coral reefs, we can go snorkeling or scuba diving near the shore. The sea ___58___ Taiwan has extremely varied features which showcase the world's richest sea life. The ocean around us is a paradise of infinite beauty as well as ___59___ numerous forms of marine life. Before we have even seen a small part of it, we can destroy it for good. Or we can learn to share it. It's time for us to make a wise choice. Efforts ___60___ solve the problem. The government has set up a special agency to cope with it. Nature reserves have been created to protect the ecosystems. Classes on environmental awareness and protection are also being given to local people and tourists alike.

56. (A) line in (B) lined along (C) are lined with (D) lining for
 57. (A) Observe (B) To observe (C) Observed (D) Observing
 58. (A) surrounding (B) surrounded (C) surrounds (D) surrounded by
 59. (A) home for (B) home around (C) home with (D) home to
 60. (A) be made to (B) been made with (C) are being made to (D) will be made for

V. Matching (15%, @1) (不需考慮大小寫)

(A) outside of	(B) on	(C) inviting	(D) aware of	(E) which
----------------	--------	--------------	--------------	-----------

Quite paradoxically, Antarctica has become the coldest vacation hot spot! Though the frozen continent doesn't seem ___61___, some 37,000 tourists are expected to set out on a trip to the South Pole during this "hot" season. Ice, wind and temperatures make the trip an impossibility ___62___ November through March. Some prefer large cruises to travel comfortably, but they never dock at a port. Once landing, visitors are privileged to have unique experiences. Tours of active scientific research facilities are often available, and visitors can see various penguins and seals, some of ___63___ are bold enough to get up close. They can also enjoy kayaking, mountaineering and diving there. Yet, an extremely important consideration that must be made is one's environmental footprint. Every person, vehicle and vessel inevitably leaves an impact ___64___ this frozen land. Thus, rules like time limits on land, keeping a 5-meter distance from animals and never taking or leaving anything on the continent must be strictly followed. Some argue that it's better for humans to stay away from this land forever. However, most believe seeing Antarctica in person helps make the world more ___65___ the importance of environmental protection. When you work out the timing and spare the money, put yourself on the waiting list to explore the bottom of the world.

(A) audition	(B) did	(C) portrayal	(D) dealt	(E) performing
--------------	---------	---------------	-----------	----------------

It's hard to imagine that Emily Blunt, now a household name, ever faced extreme challenges and disappointments. As a child, Emily struggled with stuttering. At the age of 12, the speaking problem caused her so much embarrassment that she stopped speaking. Luckily, a teacher saw her impersonating some of her classmates. She began to participate in a school play using a different accent. And she didn't stutter even once! However, at 16, she was ___66___ a very disappointing blow — she was rejected by Westminster School. Originally, she planned to follow in her sister's academic footsteps. She was instead admitted to a private college known for its performing arts program. Little ___67___ she know the rejection would lead her to a different path. There, she was spotted by an agent, who arranged her to ___68___ for a London play. In 2001, with only six months of formal acting experience, Emily found herself ___69___ with Judi Dench! Then she began to land roles both on British TV and in films, and she received many awards. She was most acclaimed for her ___70___ of Queen Victoria in *The Young Victoria*. Looking back, she was glad she stood firm in the face of adversity. Without those setbacks, she would not be who she is now.

(A) alongside	(B) legend	(C) native to	(D) forth	(E) laid
---------------	------------	---------------	-----------	----------

Poinsettias are popular holiday decorations. __71__ southern Mexico, the plants were considered symbols of purity by Mexican Aztecs, but they are now known as "Flowers of the Holy Night" around the world. For many, nothing says Christmas better than the beautiful, bright red poinsettias. How did poinsettias and Christmas come together? According to a __72__, a Mexican girl named Pepita and her cousin Pedro were looking forward to Christmas. But they were poor and had no money to buy gifts for the baby Jesus. One Christmas Eve, as they were walking to church, they met an angel who told them Jesus would love any gift they gave it was given in love. So they picked some weeds from __73__ the road and brought them to the church as their gift to God. To their surprise, the weeds turned into bright red flowers when they __74__ them near the nativity scene. From that day __75__, poinsettias have become an important part of Christmas celebrations.

V. Reading Comprehension (10%, @2)

In the past, video games were often criticized not only for being violent but also for keeping players indoors, glued to their television, computer or cellphone screens. Now a new category of video games, known as "augmented reality" games, is getting players outdoors and providing them with a variety of health benefits.

To play augmented reality games such as *Ingress*, *The Walk* and *Pokémon GO*, players must travel around their communities. Using the cameras and other technology in their cellphones or tablets, players can capture tiny monsters or solve puzzles in order to progress through a game. To complete these tasks, players must visit places where people interact, such as museums, parks and other public places.

The walking or biking that people do while playing these games is extremely beneficial for their bodies. It can strengthen their muscles and reduce their weight and blood pressure, thus lowering their risk of heart disease.

Another important health benefit stems from the social nature of augmented reality games. Most people play their favorite augmented reality game with one or more family members or friends. As they travel together from one location to another, they share the excitement that comes with each new discovery they make. This improves players' moods and in some cases can even lift them out of depression.

As with any outdoor activity, it is important for augmented reality game players to pay attention to their surroundings at all times in order to avoid accidents. As long as they are careful, they can have fun and help their bodies and minds, too.

76. What can be said of the background of this article?

- A. The writer approves of this new kind of video game.
- B. The writer is good at this new kind of video game.
- C. The author is a developer of smartphone apps.
- D. The author is skeptical about smartphone games.

77. In what way are augmented reality games different from traditional video games?

- A. The former are going viral because they are easier to play.
- B. The latter are gradually falling out of favor.
- C. The former get people to leave their rooms.
- D. The latter tend to cost more.

78. What can be inferred about players of augmented reality games?

- A. They are typically shy.
- B. They enjoy the privacy of the games.
- C. They spend big money on these games.
- D. They often have company.

In 2000, French archaeologist Franck Goddio and his team found the preserved remains of Thonis-Heracleion and Canopus, two ancient Egyptian cities, on the sea floor near the mouth of the Nile River. The team painstakingly dug the cities out from mountains of sand that had settled over them. Their efforts yielded some incredible discoveries, such as a five-meter-tall statue. A stele, or large stone monument, records the city's name and information about laws, such as tax regulations. And 69 ships lay buried in the same bay – the largest group of ancient ships ever found.

These cities were built on a foundation of soft clay. As their populations grew, the weight of people and homes compressed the clay. In A.D. 800 the ground below the city collapsed, causing people to flee. The ground collapsed again some time later, and over the course of 1,000 years, the land sank under the waves.

When Goddio and his team discovered the remains of the cities, they might have been tempted to claim ownership of their finds. Legally, they could only have done so if the discovery had been made in international waters. In this case, the treasures were found in Egyptian waters; thus, they clearly belonged to that country.

Since then, many of the items have been displayed in the Egyptian Museum of Cairo. Egyptian law forbids the export of these ancient objects, but the museum has been happy to loan them to art institutes in other countries. As a result, in 2016, the British Museum in London was able to mount a huge show entitled "Sunken cities: Egypt's lost worlds." It featured many of the finest objects that Goddio and his crew discovered.

79. What can be inferred about the "Sunken cities" exhibit?

- A. The exhibition failed to attract visitors.
- B. Most of the exhibits were borrowed items.
- C. Issues arose over ownership of the items.
- D. Egypt profited a lot from the exhibition.

80. According to the article, what is true about Thonis-Heracleion and Canopus?

- A. The inhabitants were brutal barbarians.
- B. Heavy taxes were imposed.
- C. The cities grew increasingly populous.
- D. The sunken ships explained the cities' demise.
