| 16. (A) another | (B) other | (C) the other | (D) others |
| 17. (A) work | (B) take | (C) make | (D) do |
| 18. (A) applies for | (B) takes on | (C) lies in | (D) comes to |
| 19. (A) rise | (B) raise | (C) rose | (D) arise |
| 20. (A) think | (B) thinks | (C) to think | (D) thinking |

(B) Wouldn't you like to get a job with a salary of AU\$150,000 for six months? What's even better, you can live on a tropical island __21__ by a beautiful sea with abundant marine life. It may sound unbelievable, but it is __22__ Ben Southall did when he won the "Best Job in the World" contest. Organized by Tourism Queensland, Australia, the goal of the contest was to find an island caretaker for Hamilton Island in the Great Barrier Reef. Over 34,000 people competed for the position, and they were asked to present a 60-second video __23__ why they were qualified for it. Some mentioned their previous work experience, __24__ others chose to show their unusual side. Through careful screening, only 16 people entered the final stage. Ben Southall's video was humorous and straight to the point, __25__ him the chance to compete as one of the finalists.

Then he began to take care of everything on and around the island and share his experiences and thoughts with the world __26__ his blog. In the interviews with Oprah Winfrey over Skype, he said that his experience gave him a better understanding of __27__ important the Great Barrier Reef's ecosystem is and __27__ people should preserve it by adopting a more eco-friendly lifestyle. He also urged people to try new things, and develop a global view: "Take on the world today, dream a little and book that flight you've been thinking about taking"

(C) There are actually two Formosa on the earth. By remarkable coincidence, the two places are antipodal __28__ each other. One is Taiwan, __29__ in a complex area between two plates and the other __29__ on the banks of Paraguay River in Argentina. Now, let's take a close look at these two Formosas. Taiwan boasts a variety of landforms and wildlife, some of __30__ are unique to Taiwan. Two-thirds of its 36,000 square kilometers are covered by mountains with dense forests. The mountains, valleys, rivers, and reefs are __31__ hundreds of local species. __32__, most of Formosa, Argentina, which has a total area of 72,000 square kilometers, is flat, covered with forests, grasslands, and marshes. In the eastern part of the province, it rains more, and thus there are forests and streams that are populated with unique types of animals.

As for their economies, the two Formosas also present us with a clear contrast. Taiwan __33__ a relatively unknown place whose main economic activities were rice farming and fishing; however, it has developed at an impressive speed and now is renowned worldwide for its lively economy and advanced information technology and industry. __34__, Formosa, Argentina is

one of the poorest provinces, mainly due to its history and climate. Its economy is mainly based on cattle-raising and other agricultural activities such as growing cotton and fruit. Ranching is especially important to the economy. The total number of cattle in Formosa exceeds 1.5 million head, more than three times the __35__ of its human population.

28. (A) with (B) for (C) at (D) to
 29. (A) lies / is located (B) lied / located (C) lying / stands (D) stands / lies
 30. (A) what (B) which (C) that (D) them
 31. (A) home to (B) native to (C) supplied with (D) provided with
 32. (A) For example (B) What's more (C) In addition (D) On contrary
 33. (A) was used to be (B) was used to being (C) used to be (D) used to being
 34. (A) That is to say (B) On the other hand (C) What's more (D) In general
 35. (A) number (B) amount (C) heads (D) size

III. 文意選填 20% (每題 1 分, 請忽略大小寫)

(AB) along with	(AC) as to	(AD) fall	(AE) plight	(BC) founded
(BD) under	(BE) poverty	(CD) additionally	(CE) repairing	(DE) another

(A) After the ice-making submarine received the reward, however, the science behind the design came __36__ criticism. One criticism was that there was no answer __37__ how the massive amounts of energy needed to desalinate and freeze the water would be provided. __38__ was that the amount of heat generated by the freezing process would result in a net warming effect. __39__, the ice would be too thin to stay frozen for a significant amount of time. The designers couldn't sufficiently answer many of the scientific criticisms. Their inventive idea does, however, indicate the need for creative solutions in __40__ the loss of polar ice.

(B) Poor people have difficult lives. To get needed money, the poor then __41__ victim to loan sharks, who lend at very high rates of interest which consume future income. Such loans often simply worsen the cycle of __42__ and debt. When Muhammad Yunus saw the __43__ of poor people in his home country of Bangladesh, he determined to help them. His way of helping, microlending, has changed the world. The Grameen Bank, which Yunus __44__, became a model for microlending all around the world. So effective and influential were his efforts that Yunus received the Nobel Peace Prize in 2006. He has also received dozens of other humanitarian awards, __45__ at least 60 honorary university degrees.

(AB) innocence	(AC) assets	(AD) prejudice	(AE) access	(BC) implement
(BD) take	(BE) racism	(CD) intriguing	(CE) all	(DE) spam

(C) Cybersecurity can be defined as measures taken to protect yourselves from internet crimes involving unauthorized __46__ to our computer and data. The following are ways that you can adopt to guard your computer. First, __47__ cybersecurity awareness training. This can help your employees identify cyberthreats and take action to protect the company from any potential consequences. Second, __48__ email security seriously. Use a __49__ filtering system, and teach your workers to recognize phishing emails and report them to your IT department. Furthermore, protect sensitive company information with a VPN. Hackers may steal your personal data, including usernames, passwords and the sites you visit. To protect your company __50__, always use a virtual private network when using any Wi-Fi network.

(D) *To Kill a Mockingbird*, a Pulitzer Prize winner, was published in 1960. It has been praised for its sensitive treatment of two children's view of __51__ and justice in the American South where blacks are treated with hostility. As the story progresses and the children grow up, they begin to see the sin and evil in their town. The title *To Kill a Mockingbird* represents __52__. It is a sin to kill a mockingbird because __53__ they do is sing their heart out for us. Boo Radley is a mockingbird in that he is sweet and kind even though he is misjudged by society. The fact that Scout's last name is Finch, another kind of small bird, indicates that they are vulnerable in the American South. This is indeed an __54__ book about justice and judging. The book also delivers a significant message: never allow __55__ to taint our belief in the goodness of people.

IV. 閱讀測驗 14% (每題 2 分)

(A)

Nobita's typical day consists of arriving late to school, falling asleep during class, scoring zero, getting scolded by his teacher, being teased by his classmates, getting grounded by his mother for not completing his homework, and being bullied by all his friends. He is scared by almost everything, particularly ghosts, and is a cry-baby. He dislikes going on outdoor activities instead of having afternoon naps and reading comics, usually right after school. Even though he has many flaws, he is kind-hearted, emotional, honest, occasionally hard-working and sometimes courageous. He has often risked his life to help save others.

Doraemon's original paint color was yellow. After getting his ears gnawed off by a robot mouse at the 22nd century, he accidentally drank a potion labeled "sadness". As he wept, the yellow color washed off and his voice changed due to the potion. As a result, he developed a morbid fear of mice despite being a robotic cat. His favorite food is *dorayaki*, a Japanese treat filled with red bean paste.

Shizuka Minamoto is a smart, kind, pretty and quiet girl. She is Nobita's best friend and does not avoid him due to his failing grades, lazy disposition or constant failures. In fact, she often tries to encourage him to do better, though she usually fails to convince him. She likes to take a bath several times a day. Her true passion is the violin, in which her playing is even more horrendous than Takeshi Goda's singing. She is also known for taking piano lessons unwillingly due to her mother's wishes, which is sometimes a reason for declining to hang out with friends.

Takeshi Goda is a strong and quick-tempered local bully. He also frequently steals other children's stuff under the pretext of "borrowing" them, unless the toy is damaged. He is known for his horrible singing voice, though he considers himself a great singer. To prove this, he sometimes "invites" others to attend his concerts, under the threat of beatings. He is also confident in cooking, but just like his singing, his hand-made food can be a nightmare for other people very easily. However, he does not hesitate to help his friends when they are in real trouble.

Suneo Honekawa is the fox-faced rich child who loves to flaunt his material wealth before everyone, especially Nobita. A lot of the stories start with his showing off some new video game, toy or pet which evokes Nobita's envy. He sometimes despises Nobita and often makes fun of him, most often resulting in his getting into trouble. He also tries to face as little trouble as possible and go home, unless others convince him, making him somewhat a coward. He has an extensive knowledge of science, and is a talented artist and designer, besides being extremely cunning.

56. Which of the following statements is true?

- (A) Doraemon's original color was yellow after he ate dorayaki.
- (B) Shizuka Minamoto is a talented girl, who likes piano and violin lessons.
- (C) Takeshi Goda is confident and good at singing and cooking.
- (D) Nobita has many flaws, but he has often risked his life to save friends.

57. Which of the following statements is true?

- (A) Suneo Honekawa possesses knowledge of science and is a talented artist.
- (B) Nobita's typical day includes being scolded by his teacher, going to school late, except scoring zero.
- (C) Nobita is often bullied by Suneo Honekawa and Takeshi Goda.
- (D) Doraemon drank a potion, which changed his voice, color, and ears.

58. Which of the following descriptions of the characters is false?

- (A) Shizuka Minamoto: a kind-hearted, quiet girl.
- (B) Takeshi Goda: a mild-tempered bully.
- (C) Nobita: a constant loser.
- (D) Suneo Honekawa: a show-off coward.

(B)

The following are some questions that many people would like to know about the novel coronavirus disease.

Question	Answer
Can cold weather and snow kill the novel coronavirus in human body?	There is no reason to believe that cold weather can kill the new coronavirus or other diseases. The normal human body temperature remains around 36.5°C to 37°C, regardless of the external temperature or weather. The most effective way to protect yourself against the new coronavirus is by frequently cleaning your hands with alcohol-based hand rub or washing them with soap and water.
Can taking a hot bath prevent the new coronavirus disease?	Taking a hot bath will not prevent you from catching COVID-19. Your normal body temperature remains around 36.5°C to 37°C, regardless of the temperature of your bath or shower. Actually, taking a hot bath with extremely hot water can be harmful, as it can burn you. The best way to protect yourself against COVID-19 is by frequently cleaning your hands. By doing this you eliminate viruses that may be on your hands and avoid infection that could occur by touching your eyes, mouth, and nose.
Are hand dryers effective in killing the new coronavirus?	No. Hand dryers are not effective in killing the 2019-nCoV. To protect yourself against the new coronavirus, you should frequently clean your hands with an alcohol-based hand rub or wash them with soap and water. Once your hands are cleaned, you should dry them thoroughly by using paper towels or a warm air dryer.
Can spraying alcohol or chlorine all over your body kill the novel coronavirus?	No. Spraying alcohol or chlorine all over your body will not kill viruses that have already entered your body. Spraying such substances can be harmful to clothes or mucous membranes (i.e. eyes, mouth). Be aware that both alcohol and chlorine can be useful to disinfect surfaces, but they need to be used under appropriate recommendations.

Adopted from <https://www.who.int/emergencies/diseases/novel-coronavirus-2019/advice-for-public/myth-busters>

59. Which of the following substances needs to be used under appropriate recommendations?

- (A) hand dryer (B) alcohol-based soap (C) warm air dryer (D) chlorine

60. Which of the following is the best way to protect ourselves against novel coronavirus?

- (A) Frequently spray chlorine all over our body and house.
(B) Clean our hands with a soap and running water.
(C) Take a hot bath every day to keep ourselves clean.
(D) Use hand dryers before and after meals.

61. To fight against the coronavirus, we should _____.

- (A) avoid touching our eyes, nose, and mouth
(B) never spray alcohol or chlorine all over our body
(C) visit places with cold weather, like America or Canada.
(D) always use hot water and hand dryers

62. The reason why cold weather can't kill the novel coronavirus in our body is because _____.

- (A) the best temperature for the coronavirus is 36.5°C to 37°C
(B) the coronavirus are active in both hot and cold climate
(C) humans are warm-blooded animals so the nCoV in the body won't be affected by external temperature
(D) the novel coronavirus is so strong that they can survive in any kind of climate.

V. 單字&翻譯 16% (每題 1 分)

1. Travelling is a great way to broaden one's hns.
2. You should try to be ec when you are being interviewed for a job. Show your passion for the job and you are more likely to be hired.
3. Most seniors in high school are exhausted and worried now because the an process for study in the university is very complicated.
4. The sr and breathtaking view from atop the Mount Ali leaves visitors amazed and speechless.
5. In case of ey, press the alarm button. The police or guards will come to your rescue as soon as possible.
6. More than half of the country's population practices ae. That is, many people are farmers growing crops, such as rice or wheat.
7. In ancient times, salt was considered useful in food pn since it prevented food from getting rotten.
8. After spending 30 minutes in a convenience store for some must-needed rest, the bikers rmed their cycling around Taiwan.
9. Many animals in the world, including polar bears and whale sharks are on the verge of en, so we must protect them.
10. Using solar energy to power home is a good option in Japan because compared with other energy alternatives, electricity there is ry expensive.

11. 很多畢業生很難找到工作 (請用 trouble 造句, 此句 3 分)

12. 現在對每個人來說勤洗手是必要的(請用 necessary 造句, 此句 3 分)

答案卷

Class _____ No _____ Name _____
